

GROW A FUZZY FRIEND

Here's a GO GREEN project just for the KIDS! A great way for kids to enjoy a gardening activity, it will keep them busy while getting their hands dirty! Grass heads are fuzzy, funky and fun. These creatures have a personality all their own, some have moustaches, red noses, pierced ears and pierced noses and some have no noses at all! Once they start growing, kids can cut their grass heads very own hair! It's easy to see why kids can't wait to create lovable grass heads.
